## Track 6: Sounding the Call

Communication Strategies to Create Healthier Homes

Monday, June 20

3-4:00pm

60

0.1

EPA's Outreach for Lead Poisoning Prevention

Monday, June 20

4:15-5:15pm

60

0.1

Chemical Safety in the Home

Tuesday, June 21

4:15-5:15pm

60

0.1

Improving Resident Health Conditions Through Energy Efficiency Programs

Wednesday, June 22

1-2:30pm

90

0.15

Healthy Housing Market Outreach Through Private Sector Strategic Collaborations

Wednesday, June 22

1:30-3:00pm

90

0.15

The Collaborative Process: Transitioning from Lead Prevention to Healthy Homes

Wednesday, June 22

1:30-3:00pm

90

0.15

CO- What You Need to Know

Wednesday, June 22

4:30-5:30pm

60

## Track 7: Just the Facts

Windows and Exterior Sources of Lead: Emerging Evidence about These Potential Hazards and Methods of Control

Monday, June 20

1-2:30pm

90

0.15

Pesticides and Other Persistent Chemical Contaminants in Homes and Their Potential Health Impact

Monday, June 20

3-4:00pm

60

0.1

Green, More than a Color?: Research on the Potential Benefits of Green Housing on the Indoor Environment and Health

Monday, June 20

4:15-5:15pm

60

0.1

Childhood Lead Poisoning 2011: A Mother's Story

Tuesday, June 21

1-2:30pm

90

0.15

Childhood Asthma and the Home Environment: A Summary of Current Knowledge

Tuesday, June 21

3-4:00pm

60

0.1

Key Contaminants in the Indoor Environment and Their Potential Effects on Resident Health: Results from a Literature Review and Research in Low Income Multi-Family Housing

Tuesday, June 21

3-4:00pm

60

0.1

New Evidence on Respiratory Health Risks from Damp and Moldy Homes and Efficacy of Commercial Fungicides for Mold Remediation

Tuesday, June 21

3-4:00pm

60

0.1

Home Environments, Safety Practices, and Indoor Air Quality Among Recent Mexican Immigrant Families: A Population-Based Study

Tuesday, June 21

4:15-5:15pm

60

0.1

Stay Warm & Eat Well: Reducing Indoor Air Pollution from Cooking and Unvented Gas Appliances

Wednesday, June 22

1:30-3:00pm

90

0.15

Building Capacity to Prevent Lead Hazards: Evaluation of Tools and Training that Make a Difference

Wednesday, June 22

4-5:00pm

60

0.1

Home Occupant Sampling for Lead, Dust Allergens and Fungi: Significance of Home Hazard Perception and Comparative Professional Test Results

Wednesday, June 22

4:30-5:30pm

60

0.1

Moisture in Homes: Improving our Understanding of Sources and Interventions to Mitigate Problems and Reduce Humidity

Wednesday, June 22

4:30- 5:30pm

60

0.1
